MEMORANDUM FOR:

SUBJECT: 13 June Meeting of COBAT

1. At the 13 June meeting of COBAT, as a result of Mr. Bauer's excellent report of his trip and the likelihood that a USIA engineer soon would make a study of Eurovision facilities, it was decided to withdraw the paper on the Eurovision survey from the agenda of the next Board Assistant's meeting. Under the circumstances I feel that this was a good move at this time.

2. The meeting also discussed briefly the problem of presenting Libya with a national radio system. The discussion will be continued next week. With regard to the next meeting, I suggested the subject of radio in Saigon should be brought up. It was so agreed.
